**CONTENTS: 20 LITRES**

BATCH NO:

DATE OF MANUFACTURE:

**DIRECTIONS FOR USE**

SITUATION	RATE	CRITICAL COMMENTS
Post emergent Herbicides	0.3 – 1.0 L	ACP Hotfoot Spray Adjuvant may be used in place of non-ionic surfactants or crop oils. Subject to spray volumes, usage rates may vary between 0.2 – 2.0 litres of ACP Hotfoot Spray Adjuvant per Hectare.
Select* Spinnaker* Correct* Shogun* Topik*	500 mL 500 mL 500 mL 500 mL 500 mL	For post-emergent use on peanuts and soybeans. Refer to pesticide label.
Pyrethroid Insecticides	2.0 – 5.0 L	ACP Hotfoot Spray Adjuvant may be used with certain emulsifiable concentrate formulations.
Defoliants Desiccants	0.6 – 2.0 L Per hectare 0.6 – 2.0L	ACP Hotfoot Spray Adjuvant may be used in place of crop oils. The higher recommended rate may be necessary when plants are subject to severe stress.

**NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

**GENERAL INSTRUCTIONS**

ACP Hotfoot Spray Adjuvant is a highly penetrating spray adjuvant suitable for use with certain post emergent herbicides, pyrethroid insecticides, defoliants and desiccants.

It improves the pesticide performance by utilizing the excellent penetration effect of esterified vegetable oils in combination with the wetting and spreading characteristics of non-ionic surfactants.

**COMPATIBILITY**

ACP Hotfoot Spray Adjuvant is compatible with Select\*, Spinnaker\*, Correct\*, Shogun\*, Topik\*.

**HERBICIDE SPRAYS**

ACP Hotfoot Spray Adjuvant can be added to certain post emergent herbicides to increase their efficacy. In some situations ACP Hotfoot Spray Adjuvant may reduce selectivity.

Care must be exercised when applying ACP Hotfoot Spray Adjuvant with post emergent herbicides on sensitive crops under conditions where plants are subject to drought stress, high temperatures, and high humidity. If in doubt it is a sensible precaution to trial a small area before committing to a large scale application.

**PYRETHROID INSECTICIDES**

Addition of ACP Hotfoot Spray Adjuvant to certain emulsifiable concentrate formulations of pyrethroid insecticides can improve efficacy.

**PRECAUTION**

Read all instructions for use on the ACP Hotfoot Spray Adjuvant label and on pesticide label. The pesticide manufacturers directions and

recommendations always take precedence over directions contained on this label.

**MIXING INSTRUCTIONS**

Follow directions on pesticide label. Half fill the tank with water and add required amount of pesticide with agitation. Top up tank with water followed by addition of required amount of ACP Hotfoot Spray Adjuvant and continue agitation while spraying.

**PROTECTION OF LIVESTOCK, WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT**

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

**STORAGE AND DISPOSAL**

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a well-ventilated area as cool as possible. DO NOT store for prolonged periods in direct sunlight. Triple rinse containers before disposal. Add rinsings to spray tank. DO NOT dispose of undiluted chemicals on-site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500mm below the surface in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots, in compliance with relevant Local, State or Territory government regulations. DO NOT burn empty containers or product.
